

**Job Opening: Farm Chef, Seasonal
Elmwood Stock Farm, Georgetown KY USA**

Start Date: May 2022

Monday - Friday 25-35 hrs./week

In this daytime position, the Farm Chef will prepare a simple buffet style lunch in the farm kitchen for a crew of 15- 20 people. Utilize organic produce and proteins from Elmwood Stock Farm, supplemented with staple organic ingredients purchased through other local sources.

Hone your skills by preparing your own weekly menus based on the freshest seasonal ingredients and develop an insider's knowledge of the potential of farm to table.

This is a Monday through Friday seasonal part-time position during the peak growing season May through December. Potential to continue into the off-season. Previous kitchen experience required.

Skills & Attributes

- Be a self-starter with the ability to multi-task.
- Ability to work alone, purposefully, with a positive attitude.
- Must be able to meet the timeline of having lunch ready on time.
- Ability to perform all aspects of prep, cooking, service, and cleanup
- Ability to plan and prepare nutritious and quality tasting dishes around the availability of seasonal products.
- Be creative and resourceful when following recipes (i.e., the ability to substitute on-hand ingredients.)
- Flexibility when the situation calls for a late plate, a to-go meal, or the crew is running late to lunch.
- Good communication skills
- Knowledge and training in food service sanitary practices such as SERV Safe or Food Manager/Food Handler training.

Compensation and Benefits

- Access to free organic vegetables, discounted grass-fed and pasture raised organic meats and eggs.
- Compensation dependent on professional experience in the range \$15 to \$18 per hour.

Elmwood Stock Farm is a family-owned farming business located in Scott County, KY. The farm covers 550 acres and grows a wide assortment of organic vegetables. Additional production includes row crops, hay for livestock, grass-fed and -finished beef cattle and sheep, along with pasture-raised pigs, chickens, and heritage breed turkeys. The farmland is USDA Certified Organic, as are the crops, the animals and the products produced. This is unique for the area, and we are proud to maintain a healthy place to work while producing nutritious farm foods for our customers and our farm crew.
